MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Special Study of [REDACTED]

25X1A6a

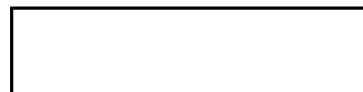

1. Each year the Bureau of the Budget identifies issues regarding the Agency's programs which we respond to as part of the normal planning, programming, and budgeting process. This year BOB has raised an issue concerning continuation of the [REDACTED] requesting that a special analysis be included in the Program Wide Program Memorandum.

25X1A6a

2. After reviewing the questions raised by the Budget Bureau (see attachment), I have concluded that the scope of analysis which is required justifies a Special Analytic Study which will be reflected in a Program Memorandum.

3. Because the Bureau's primary concern with [REDACTED] relates to its function as a logistics facility, I think that you should undertake the study. In doing so, you can, of course, obtain help from the Plans Directorate and from other Agency components as you deem appropriate. The final study should be submitted to me by 15 August.
